Art Unit: 1746

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-4 and 7 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Milocco (U. S. Pat. No. 5,264,043).

Re claims 1 and 2 for example, note that Milocco discloses a dishwasher comprising:

a washing chamber (16);

top (11) and bottom (10) nozzles injecting water in the washing chamber;

a sump (7) provided under the washing chamber to store the water;

a pump (9) pumping the water stored in the sump;

a supply pipe (as at 12) adjacent to one side of the pump wherein the water pumped by the pump flows in the supply pipe;

upper and lower pipes leading the water to the top and bottom nozzles, respectively; and

a valve assembly (12) connecting the supply pipe to the upper and lower pipes to selectively open/close the upper or lower pipe using a pressure of the pumped water and guide having an inlet hole connected to the supply pipe at top, the guide having first and second holes connected to the upper and lower pipes, respectively formed at a bottom, the guide having an inner passage circulating inside; and a ball (unnumbered) moving along the inner passage to selectively open/close the first or second outlet hole.

Art Unit: 1746

3. Claims 5 and 8-12 objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. In France'278, Edwards et al., Lim et al., Eirmann, Ornas, Clearman, Steidley, Constance et al., Wright, and Favet, note the bal vale control means.
